# NINJA 125 FEATURES

## All-digital Instrumentation

All-digital instrument panel gives the cockpit a modern, sporty look.

## Sporty Suspension

ø37 mm telescopic fork contributes to both light, nimble handling as well as a generally composed riding character. Kawasaki's original linkage-equipped Uni Trak rear suspension delivers a smooth ride over a wide range of road conditions.

## Transmission

Smooth-shifting six-speed transmission complements the sporty street performance, offering a gear for every situation. The clutch engages smoothly and disengages cleanly, making it easy to operate for new riders and optimising clutch feel for on-road performance.

## Independent Sport ABS

Standard equipment ABS contributes to rider reassurance. The highs spec system was designed specially for motorcycles and features a very compact ABS unit. Independent activation maximises sporty control.

## Powerful Engine

125 cm<sup>3</sup> 4-stroke Single Smooth power delivery contributes to the Ninja 125's 125 cm<sup>3</sup> engine's feel-good performance. Like a typical Kawasaki engine, the engine delivers a good "punch" at high rpm, and continues to pull right up to the rev limiter. Reliability inherited from its robust 250cc base engine adds peace of mind. Six-speed transmission Smooth-shifting six-speed transmission complements the sporty street performance, offering a gear for every situation. Electric start & fuel injection Electric starter and fuel injection ensure hassle-free starting at the push of a button.

## Supersport Ergonomics

The Ninja 125's ergonomics were designed with sporty street riding in mind. The riding position is naturally aggressive, with the rider leaning forward to reach the racy clip-on handlebars.
